

Noor Ullah

Machine Learning Engineer | Applied ML & Computer Vision

Islamabad, Pakistan | +92 334 4242455 | noorullahsb@outlook.com | [linkedin.com/in/noor-ullah007](https://www.linkedin.com/in/noor-ullah007) | noor-ullah.me

Summary

Machine Learning Engineer with a research-driven approach to building scalable, high-impact ML systems. Specializes in deep learning and applied computer vision, with proven experience leading research initiatives and translating experimental models into production-ready solutions. Brings end-to-end expertise across the ML lifecycle, including data curation, model development, evaluation, and deployment, focused on delivering robust systems using modern Python-based frameworks and efficient inference services.

Technical Skills

Machine Learning	Supervised Learning, Deep Learning, Transfer Learning, Model Evaluation, Data Augmentation, Experiment Design & Analysis
Computer Vision	Object Detection, Image Segmentation, Image Classification
Tools & Frameworks	Python, PyTorch, TensorFlow, OpenCV, NumPy, Pandas, Scikit-learn

Professional Experience

Lead Researcher, British Council Funded International Research Project

Jun 2025 - Present

Quaid-i-Azam University, Islamabad

- Led research activities in Pakistan for a British Council-funded UK-Pakistan collaborative project, partnering with the University of West London and the University of East London.
- Directed study design, data collection coordination, and analysis at Quaid-i-Azam University in alignment with defined project work packages.
- Applied machine learning-driven analysis and experimentation to support project deliverables.

Associate Researcher, ICESCO

Aug 2025 - Present

- Conducted applied machine learning research, focusing on model development, evaluation, and experimentation.
- Reviewed and implemented machine learning techniques from academic literature to support research objectives.

Education and Certifications

MPhil in Computer Science, Quaid-i-Azam University

2024 - Present

BSCS, PMAS Arid Agriculture University

2020 - 2024

[AI For Everyone](#), DeepLearning.AI

2025

[Digital Information Literacy](#), The State University of New York

2025

[Introduction to Mobile Development](#), Meta

2023

[Technical Support Fundamentals](#), Google

2022

Additional Information

Languages: English, Urdu

Interests and Hobbies: Building custom PCs and optimizing system performance, E-sports, Chess, Hiking
